10. GUIDELINES FOR PROGRAM IMPLEMENTATION

The program is designed based on the regulations on higher education training from the Ministry of Education and Training, applicable to students in the Logistics and Supply Chain Management major starting from the enrollment semester of the 2022 - 2023 academic year (class 45).

The training process is based on a well-structured curriculum, training objectives, target audience, human resource requirements, and specific training demands. With elective courses, depending on the actual situation of social demand trends, the Faculty will advise students to select appropriate courses.

The Head of the Faculty is responsible for organizing and guiding the principles for developing detailed syllabi to ensure that the objectives, content, and requirements are met, while also satisfying the needs of learners and society.

The training program is reviewed and updated every 2-3 years to respond to the development of the Logistics and Supply Chain Management industry and align with socio-economic development needs.
